

In the Media

January has been a month for some great exposure of neurotechnology to the disability community. Articles appeared in three community-based publications:

- [SCI Life: Technology Options for Managing Chronic Pain](#)
- [The Abilities Buzz: Neurotechnology: The Cutting Edge and Beyond](#)
- [Action Magazine: :What's Next in Neurotechnology](#)

Although these publications are small in comparison to "mainstream media", they do have a loyal readership in the hard-to-reach disability community. To read more about neurotechnology in the media, visit our [Media Center](#).

Outreach Activities

Neurotech Network is reaching out to the disability and medical professional communities with our mission to improve education of and advocacy to access neurotechnology devices, therapies and treatments. In 2010, we continue our efforts by hosting educational workshops to the disability community and continuing education sessions for medical professionals. Events will be held across the country.

[Visit our Upcoming Conferences page to see the latest schedule.](#)

Help Us While You Search

We have something new and exciting we'd like to share with you! It's the new Neurotech Network toolbar - once added to IE or Firefox, each time you shop at more than 1,300 stores (from Amazon to Zazzle!) a percentage of your purchase will automatically be donated to Neurotech Network - at no cost to you (and you may even save money as the toolbar provides coupons and deals as well!). The toolbar also has a search box and each time you search the Internet, about a penny is donated to Neurotech Network.

And please pass this along to all of your friends. The two minutes it takes to add this toolbar to your browser can make a lifetime of difference!

Get the toolbar NOW!
